# Set up Wi-Fi on Android for Students

In order to connect to the wi-fi network at Trinity (TrinAir) on your Android phone, you will need to follow the below setup instructions. After these steps have been completed once, your phone should automatically connect in the future.

1. Navigate to the **Wi-fi Settings** on your device.

2. Select **TrinAir**.

3. The menu shown below will appear. Please enter the following information:

- Select **PEAP**
- Type your **Trinity username** (e.g. ab12345) in the **Identity** field
- Type your **Trinity password** in the **Password** field
- Select **Use system certificates**
- Select **Don't validate**
- Type **trnty.edu** in the **Domain** field
- Check **Auto reconnect**
- Click **Connect**

4. Your Android phone should now automatically connect to the TrinAir wireless network.
